EXPERIENCE

UCSD extension, San Diego — *Instruction Assistant*

July 2018 - PRESENT

- Lead instruction assistant responsible for teaching students in a full time immersive web development bootcamp focussed on the MERN stack.

Mother Erth, San Diego — *Front End Web Developer*

March 2018 - July 2018

- Researched, implemented, and tested new features for ecommerce website in production that drove sales conversion up 15%.

FuzeBox — *Founder*

November 2002 - September 2016

- Built a startup consumer goods company with a successful business model that was completely self funded and scaled to multiple locations all over southern California with gross sales jumps that doubled in its peak years.
- Charged with business strategy, marketing, operations, and project management that drove sales over $8 million.

PROJECTS

Airbnb Guidebook — *Responsive website template*

A full stack node app designed to help hosts promote, market and utilize their home and neighborhood amenities. Aimed at the sharing economy for hosts looking to help distinguish their property with an excellent marketing tool designed to boost user ratings and guest satisfaction at a minimal cost.

Swappaws — *Social Networking Responsive Application*

Connecting pet owners by creating a social media platform that can tap into a shared communal network that can trade services as well as purchase from pet professionals. A robust ratings system takes advantage of crowd sourced reviews making the pet service accountable.
